

ROBOCOM SYSTEMS COMPLETES ACQUISITION OF MUNICS INFORMATION SYSTEMS

Farmingdale, NY, Markham ON, January 28, 2013. Robocom Systems International announced today the acquisition of Munics Information Systems, based in Cedar Knolls, New Jersey. The successful conclusion of the transaction marks Robocom's fourth acquisition of supply chain execution software companies in the past two years.

"In this ongoing challenging economic environment it is essential that we continue to expand, extend and enhance the solutions that we deliver to our customers," said Robocom CEO, Jon Scheumann. "Our ability to deliver solutions that enhance customer service, improve productivity and grow profitability has been greatly expanded by the acquisition of Munics. This acquisition is a reflection of the strength of the Robocom Team and our ability to deliver superior supply chain execution solutions to our customers. We believe that Robocom is well positioned for continued growth," Scheumann added.

Fred Radcliffe, President of Robocom said "The Munics domain of expertise in the wholesale distribution industry will be a terrific addition to the Robocom Team. We are excited to bring onboard the [Next Generation](#) solution and are anxious to expand the product and to integrate it with the Robocom solution set. We believe that the Munics' products will bring tremendous value to the Robocom customers," said Radcliffe.

"Robocom is focused on enabling excellence in our customers' supply chain execution" said Fred Radcliffe. "We clearly understand the challenges facing the leaders responsible for the day-to-day results in warehousing, distribution, transportation and trucking operations. Adding the Munics Team and products to Robocom will result in stronger solutions and deeper expertise for our customers" Radcliffe added.

About Robocom
