

ROBOCOM SYSTEMS COMPLETES ACQUISITION OF ACCORD SOFTWARE INC.

Farmingdale, NY, Markham ON, Jan, 2012. Robocom Systems International announced today the successful acquisition of Accord Software Inc., based in Concord, Ontario. The conclusion of the transaction marks Robocom's third acquisition in 2011 of supply chain execution software companies and its fourth in the past four years.

"Despite the economic strain of the past few years, Robocom has continued to deliver results for our customers and remained strong," said Robocom CEO, Jon Scheumann. "This acquisition is an important expansion of our product suite and positions us for continued growth," Scheumann added.

Fred Radcliffe, President of Robocom said "Accord is well recognized as a leader in Transportation Management software. At a time when transportation costs are a major concern for our customers, we are excited to bring such a strong set of new products into our supply chain software suite."

Tony De Feo, the founder of Accord Software added that "We believe Robocom's supply chain solutions and professional approach to project management and customer support will be important to Accord customers. Robocom's size and strength will be of great interest to those who are interested in the power of Accord's software."

"Robocom is focused on enabling excellence in our customers' supply chain execution" said Fred Radcliffe. "We clearly understand the challenges facing the leaders responsible for the day-to-day results in warehousing and distribution operations. Adding the Accord Team and products to Robocom will result in stronger solutions and deeper expertise for our customers."

About Robocom
