

## ***Osram Sylvania Implements Robocom Systems International Inc.'s RIMS Warehouse Management System at Third Distribution Center***

Massapequa, NY July 21, 2004 – Robocom Systems International Inc. (OTCBB:RIMS) announces that Osram Sylvania has implemented Robocom's flagship warehouse management system at its Midwest Distribution Center (MDC) in Versailles, KY. Osram Sylvania, the North American division of OSRAM GmbH and part of the Siemens family, has begun operations in its new 454,000 square foot MDC with RIMS controlling all warehouse operations. RIMS is also used at Osram's Eastern Distribution Center in Bethlehem, PA and at its Western Distribution Center in Ontario, CA.

The MDC RIMS system is used to track product from time of receipt through time of shipment. The Osram SAP host system sends RIMS inbound and outbound orders. The RIMS system interfaces with a small parcel shipping system and is integrated with a conveyor system.

Robocom Systems International Inc. ([www.robocom.com](http://www.robocom.com)) develops, markets and supports advanced Warehouse Management Systems software that enables customers to expand productivity, reduce costs and increase profits.
